PROFESSIONAL PORTFOLIO
pats-portfolio-lite.vercel.app

15+ deployed projects with live demos and source code: AI SaaS, CRM, e-commerce and REST APIs.

3+ years
building web products

15+
projects deployed to production

1 app
published on Google Play

SUMMARY

Full-Stack Developer and Systems & Computer Engineering student (UTP) who builds complete web products: interface, REST API, database and deployment. I mainly work with **TypeScript, Next.js, React, NestJS and Node.js**; I integrate **large language models (LLMs), AI agents and n8n automations** into real business workflows, and I ship applications to production with **Docker, Nginx and SSL** on VPS, cloud and app stores. I built **PaleroSoft**, a CRM published on Google Play. My digital marketing background helps me make technical decisions focused on conversion, user experience and client goals.

EXPERIENCE

Full-Stack Developer · Mente Nueva Marketing
May 2025 – Feb 2026

Digital marketing agency · View on Google Play · Live demo

- Built **PaleroSoft** end to end, a CRM and project management platform for agencies and remote teams, with **Next.js** on the frontend and a modular **NestJS** API.
- Delivered **10 independent modules**: authentication, users, clients, projects, tasks, comments, chat, invoicing, meetings and storage.
- Integrated **Daily.co** video calls for meetings and **Supabase Storage** for file management.
- Packaged the app as an installable **PWA** and **published it on the Google Play Store** under the agency's brand.

Stack: Next.js, NestJS, TypeScript, Supabase, Daily.co, PWA, Google Play

Full-Stack Developer & Digital Marketing · Freelance
2022 – Present

Clients in Colombia and Uruguay, plus my own products

- Designed, built and launched **generative AI SaaS products** with authentication, database and payments: Marketing IA Generator (Gemini + Mercado Pago) and Interior IA Designer (Replicate + AWS S3 + PayPal).
- Built sites on **Strapi as a headless CMS** for **Cruz del Sur** (real estate company in Uruguay, in production) and a blogging platform for authors.
- **Fraksma Sport:** managed the **Shopify** e-commerce store, built high-converting promotional landing pages and ran digital marketing campaigns.
- Deployed applications to **Linux VPS with Docker, Nginx and SSL** (Let's Encrypt) and to Vercel, Netlify and Railway.

Stack: Next.js, React, Node.js, Strapi, Shopify, Gemini, Docker, Nginx

Community Manager & Customer Support · Rapeluches
2019 – 2022

Retail store · Pereira, Colombia

- Managed social media, created content and handled customer support through digital channels.
- Maintained digital catalogs and ran marketing strategies aimed at increasing sales.

FEATURED PROJECTS

Marketing IA Generator demo ↗
SaaS that generates marketing content with Google Gemini. Clerk auth, serverless PostgreSQL (Neon) + Drizzle ORM and Mercado Pago subscriptions.

Plexo Shop · REST API demo ↗
Team e-commerce project (bootcamp). I built the API with Express, Sequelize and MySQL: JWT, Zod validation, Stripe payments, S3 images and Brevo emails.

Interior IA Designer demo ↗
Redesigns interior spaces from a photo using image models on Replicate. AWS S3 with presigned URLs and a PayPal credit system.

IA Recipe Finder demo ↗
Generates recipes from ingredients with Gemini; per-user favorites with Clerk and persistence in PostgreSQL (Supabase) via Drizzle ORM.

15+ projects with live demos and source code at **pats-portfolio-lite.vercel.app** and **github.com/davidpatjus**

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, PHP, C++, SQL, HTML, CSS
Frontend	React, Next.js, Vue, Nuxt, Angular, Astro, Redux Toolkit, Tailwind CSS, Bootstrap, Vuetify, Framer Motion, PWA
Backend & APIs	Node.js, NestJS, Express, Django, REST APIs, GraphQL, JWT, Zod
Databases	PostgreSQL, MySQL, MongoDB, Supabase, Firebase, Neon, Drizzle ORM, Sequelize
AI & automation	LLM integration (Google Gemini, Replicate), Vercel AI SDK (streaming, tool calling, structured outputs), AI agents, Model Context Protocol (MCP), n8n
DevOps & Cloud	Docker, Docker Compose, Linux VPS, Nginx, SSL / Let's Encrypt, CI/CD (GitHub Actions), AWS S3, Azure, Vercel, Netlify, Railway
Integrations	Stripe, PayPal, Mercado Pago, Clerk, Daily.co, Shopify, Strapi (headless CMS)
Tools	Git, GitHub, Postman, Figma

EDUCATION

B.S. in Systems and Computer Engineering — **In progress**
Universidad Tecnológica de Pereira (UTP)
Algorithms, data structures, software architecture, design patterns, networking and servers.

Full-Stack Coding Bootcamp III & IV — **Completed**
Universidad Tecnológica de Pereira (UTP)
Frontend, backend, databases, UX/UI and SEO, working in teams on real projects with mentorship.

High School Diploma
I.E. José Antonio Galán · Guacarí, Pereira

SOFT SKILLS

- Positive leadership
- Assertive communication
- Teamwork
- Results-oriented
- Problem solving
- Adaptability
- Critical thinking

LANGUAGES

Spanish · Native

English · B2 (certification in progress)

INTERESTS

Music (hip hop and Colombian rap), video games and content creation.
